

👤 About Me

I'm Aniket Das, a B.Tech Computer Science and Engineering student at Narula Institute of Technology with a strong passion for Full Stack Web Development, Machine Learning, and IoT. I enjoy building dynamic and responsive web applications, and I'm constantly exploring new technologies to enhance user experience and backend performance. My interest in machine learning drives me to solve real-world problems using data-driven solutions, including developing and deploying predictive ML models. I also work on designing and integrating IoT devices with sensors and microcontrollers, connecting them to cloud platforms for real-time monitoring and automation. I'm always eager to learn, collaborate, and take on new challenges that push the boundaries of innovation.
